Nowadays we expect our hotels to come with [free Wi-Fi](#), [stellar mini bars](#) and the latest [technological advancements](#). But how often do our hotels inspire us? For those who travel to get away from it all and re-energize, these hotels around the world feature immersive arts programming that can be just the thing to recharge those creative batteries.

1. Hilton Anatole Hotel (Dallas, Texas): The Hilton Anatole holds one of the largest art and antiques collections of any U.S. hotel. There's art throughout the property and in its onsite sculpture park — over 1,000 pieces, from 19th-century Asian sculptures to pieces of the Berlin Wall. But the hotel also has programming like art-infused fitness walks, art scavenger hunts and art pairing dinners. Rates start at \$169 per night.
